Thin Calcium Phosphate Coatings for Medical Implants

Thin calcium phosphate coatings of about 10 µm or less can improve the bone response in orthopedic and dental implants by overcoming the drawbacks of commercially successful, thick plasma-sprayed hydroxyapatite (HA) coatings. These alternative coatings have shown better adhesion to a variety of substrates and, because of their uniformity in structure and composition, greater stability in the biological environment. Thin Calcium Phosphate Coatings for Medical Implants presents a comprehensive, state-of-the-art review of the preparation, physico-chemical properties, and in vitro and in vivo performance of these bioactive coatings, including comparisons with thick plasma-sprayed HA techniques. Emphasis is also placed on the benefits of special characterization techniques for this type of thin coating. This book is an essential resource not only for biomaterials researchers and their students, but also for engineers in the design, development, and manufacture of medical implants.... *more on <http://springer.com/978-0-387-77718-4>*

- ▶ First comprehensive review of the results achieved with thin calcium phosphate coatings on orthopedic and dental implants
- ▶ Compares thin calcium phosphate coatings with thick coatings produced by current plasma-spraying techniques
- ▶ Presents the state-of-the-art in the study of bioactive calcium phosphate coatings
- ▶ Reviews novel methods of coating formation, physico-chemical properties, performance, and characterization techniques

CA, MA, NJ, NY, and PA residents, please add sales tax. Canadian residents, please add 5% GST. Please add \$5.00 for shipping one book and \$1.00 for each additional book. Outside the US and Canada add \$10.00 for first book, \$5.00 for each additional book. All orders are processed upon receipt. If an order cannot be fulfilled within 90 days, payment will be refunded upon request. Prices are payable in US currency or its equivalent. Remember, your 30-day return privilege is always guaranteed. Pre-publication pricing: Unless otherwise stated, pre-pub prices are valid through the end of the third month following publication, and therefore are subject to change.

All € and £ prices are net prices subject to local VAT, e.g. in Germany 7% VAT for books and 19% VAT for electronic products. Pre-publication pricing: Unless otherwise stated, pre-pub prices are valid through the end of the third month following publication, and therefore are subject to change. All prices exclusive of carriage charges. Prices and other details are subject to change without notice. All errors and omissions excepted. Please consult springer.com for information on postage.
